**Subject:** S.C. Public Service Commission Docket 2005-385-E Order No. 2006-680.

I am writing to ask the Commission to establish a policy of net metering in South Carolina so that residential utility customers may tie into the power grid. We live in a state with lots of solar power potential and the utility companies should be required to use this by purchasing surplus power from their customers. This will not only improve environmental quality, but also reduce our dependence on fossil fuels.
